

Name: _____

Klasse: _____

Datum: _____

1 Berechne.

$60 + 10 = \underline{\hspace{2cm}}$

$10 + 40 = \underline{\hspace{2cm}}$

$60\,000 + 10\,000 = \underline{\hspace{2cm}}$

$10\,000 + 40\,000 = \underline{\hspace{2cm}}$

$20 + \underline{\hspace{2cm}} = 80$

$50 + \underline{\hspace{2cm}} = 90$

$20\,000 + \underline{\hspace{2cm}} = 80\,000$

$50\,000 + \underline{\hspace{2cm}} = 90\,000$

$30 - 20 = \underline{\hspace{2cm}}$

$90 - 70 = \underline{\hspace{2cm}}$

$30\,000 - 20\,000 = \underline{\hspace{2cm}}$

$90\,000 - 70\,000 = \underline{\hspace{2cm}}$

$15 + 30 = \underline{\hspace{2cm}}$

$20 + 25 = \underline{\hspace{2cm}}$

$15\,000 + 30\,000 = \underline{\hspace{2cm}}$

$20\,000 + 25\,000 = \underline{\hspace{2cm}}$

2 Finde erst die Mini-Aufgabe. Berechne dann.

$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$40\,000 + 50\,000 = \underline{\hspace{2cm}}$

$70\,000 + 20\,000 = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$80\,000 - 60\,000 = \underline{\hspace{2cm}}$

$100\,000 - 30\,000 = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$25\,000 + 60\,000 = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$60\,000 - 55\,000 = \underline{\hspace{2cm}}$

$14\,000 + 20\,000 = \underline{\hspace{2cm}}$

$35\,000 + 15\,000 = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$86\,000 - 10\,000 = \underline{\hspace{2cm}}$
